SUMMARY

I'm a Full Stack Developer with two years of practical experience in developing, launching, and maintaining dynamic web applications. My expertise covers the entire development lifecycle, where I've successfully led both Front-end (user interface) and Back-end (server-side logic) development efforts

PROFESSIONAL EXPERIENCE

Full-Stack Developer Dec 2024 - Present

- Experienced in building and managing complete web applications using React, Spring Boot, and MySQL, ensuring seamless communication between backend logic and the UI.
- Skilled at transforming complex designs into dynamic, responsive, and user-friendly interfaces with React for an enhanced user experience.
- Proficient in managing relational data with MySQL and building reliable Spring Boot APIs to ensure data integrity and performance.

Internship, Yuwasoft Technologies Sept 2024 - Dec 2024

- Developed a feature-rich mobile application using React Native, focusing on seamless user experience and strong back-end integration.
- Contributed to a live project (Chalau) now available on the Play Store, gaining practical experience in product deployment.
